

Rombouts®

Cleaning the **Via Nova** Espresso Pod Machine:

- Push the cleaning tablet into the black pod.
- Ensure cleaning tablet faces away from you.
- Run the cleaning cycle at least **once a week**.

ESPRESSO POD GROUP CLEANING:

To run the automatic washing cycle on the flow group follow the instructions below:

1. With the appliance on and without any coffees being made or any coffee pods in the machine, press and hold down the ☉ button of the group you want to run the cleaning cycle for 5 seconds until only the ☉ symbol stays on steady.
2. Place the black cleaning pod [with the cleaning tablet in] into the selected group and press ☉ the button to start the cleaning cycle.
3. The cleaning cycle takes approximately 3 minutes per group.
4. At the end of the cleaning cycle, the washing pod is ejected automatically into the waste pod draw, and the device emits 3 beeps to identify the end of the cleaning cycle. Please retain the black cleaning pod for future use.
5. To do the cleaning cycle on the other group, repeat the above.
6. Clean the rest of the machine with a clean damp cloth.

The black cleaning pod can be used up to 12 times.

WARNING! - Wear protective gloves to prevent burns.

Rombouts®

Cleaning the **Via Quattro (Via Nova IV) Pod Machine:**

- Push the cleaning tablet into the black pod.
- Ensure cleaning tablet faces away from you.
- Run the cleaning cycle at least **once a week**.

VIA QUATTRO ESPRESSO POD GROUP CLEANING:

1. With the appliance on and without any coffees being made or any coffee pods in the machine, press and hold down the **(S)** button closest to the group you want to clean for 5 seconds until only the symbol **STOP** stays on steady.
2. Place the black cleaning pod (with the cleaning tablet in) into the selected group and press the button marked **STOP** on that group to start the cleaning cycle.
3. By using two black cleaning pods and tablets, you can clean both group heads from one side of the machine at the same time.
4. The cleaning cycle takes approximately 3 minutes per group.
5. At the end of the cleaning cycle, the washing pod is ejected automatically into the waste pod draw, and the device emits 3 *beeps* to identify the end of the cleaning cycle. Please retain the black cleaning pod for future use.
6. To do the cleaning cycle on the other group, repeat the above.

The black cleaning pod can be used up to 12 times.

WARNING! - Wear protective gloves to prevent burns.
