## Earl Grey

### Earl Grey

Be seduced by the distinctive and delicate flavour of a timeless classic. This high-quality black tea, harvested in the foothills of the Himalayas, is combined with the subtlety and freshness of natural bergamot.

Ref. 202070

Its origins have been lost over the generations and the story has become a legend. Some say Earl Grey tea gets its name from the 2nd Earl of Grey, whose servant came up with the idea to combine bergamot oil with an exceptional tea to add a touch of freshness. Earl Grey is a classic among teas and is drunk all over the world. Delicious notes of the citrus fruit bergamot, a cross between lime and bitter orange, make it a benchmark.

The combination of the full flavour of black tea and the citrus flavour of bergamot, makes it a tea to enjoy at any time of the day, from morning to evening. A real treat!

By choosing this tea, you are supporting producers and workers thanks to the Fairtrade Mark. It is also organically certified, grown without pesticides or chemical fertiliser, in plantations that help preserve biodiversity, soil quality, rivers and groundwater.

Ingredients: Black tea 98%. Bergamot essential oil 2%

### Earl Grey in detail

REGION  
**South Asia**

BREW TIME  
**3-4 min**
